

Paper Code: 4134

M.A. HOME SCIENCE PREVIOUS

Paper – IV

Research Methods and Techniques

Unit I

1. Meaning of research, its significance and objectives, criteria of a good research.
2. Research Process.
 - Problems encountered by researchers in India.

Unit II

3. Research problem – its concept, selection, and significance.
4. Hypotheses – Concept, types, formulation of hypotheses.
5. Variables – Meaning and types.

Unit III

6. Types of research – Fundamental, Action and applied.
7. Research design – Meaning, significance, Types
 - Historical, Experimental, Expost facto, descriptive and Basic principles.

Unit IV

8. Sampling – Characteristics of good sample, criteria for selecting sample. Different types of sample designs.
9. Techniques of Data collection – Interview, questionnaire, observation, tests and scales, case study.
10. Reliability and validity – Meaning and methods.

Unit V

11. Statistics, Meaning, Definition, Functions, Importance and Limitations.
12. Measures of central tendencies – Mean, Mode, Median, S.D. T-test, chi square test.
